Skills and interests

Programming Languages	C, C++, Java, JavaScript, Python
Frontend Technologies	HTML5, CSS3, Bootstrap, React.js (With Redux), Node.js
Framework & Tools	.Net, Machine Learning, Power BI, Jupyter Notebook
Database	SQL, MySQL
SDLC & Methodologies	Agile, waterfall, DevOps, Debugging
Version Control System	Git, GitHub
Soft Skills	Critical thinking, Data-driven decision making, Excellent communication

Education

Graphic Era Hill University — Uttarakhand, India
Bachelors of Technology in Computer Science Engineering — 2021 - 2025
Nancy International School — Uttarakhand, India
Senior and Secondary Education — 2020 - 2021

Experience

Salesforce Developer | CERTIFICATE — Jul 2024 - Aug 2024

- Completed Salesforce Trailhead modules covering key areas: Salesforce Fundamentals, Organizational Setup, Relationship & Process Automation, Types of Flows & Security, Apex Development, Testing & Debugging, VS Code Setup, CLI Setup, Lightning Web Components (LWC), and API integration.
- Designed and executed automated workflows leveraging LWC and Apex, now adopted by 15+ teams, allowing for real time data updates and reducing error rates in reporting by 20%.
- Applied Lightning Web Components (LWC) for building modern, reusable UI components. Worked on API integration tasks to enhance Salesforce platform functionality and connectivity.

Accenture UK Developer and Technology Virtual Experience Programmer on Forage | CERTIFICATE — Dec 2024 - Jan 2025

- Completed the Developer and Technology Job Simulation where I developed an end-to-end understanding of the Software Development Lifecycle.
- Conducted in depth research into emerging technology trends particularly in the field of DevOps, demonstrating a proactive approach to staying informed about the rapidly evolving tech landscape.
- Created and delivered a compelling PowerPoint presentation analyzing and comparing Waterfall and Agile methodologies.
- Designed a custom algorithm using pseudocode and effectively communicated its logic by creating a detailed flow diagram.
- Debugged a program written in Python by fixing syntax and logic error in the code.

Certifications

- Machine Learning A-Z: AI, Python & R (Udemy) | **CERTIFICATE**
- HTML, CSS, and JavaScript for Web Developers (Coursera) | **CERTIFICATE**
- Google Cloud Generative AI (SmartInternz) | **CERTIFICATE**

Projects

News Aggregator Web Application | LINK

- Developed a responsive web application that fetches and displays the latest news articles based on user-selected categories or search queries.
- Implemented dynamic content loading, a search bar, and category-based filtering using JavaScript and the News API.
- Designed a user-friendly interface with interactive elements and responsive layouts.

Currency Converter | LINK

- Developed a currency converter web application using HTML, CSS and JavaScript, supporting 150+ currencies and real-time exchange rates via the Frankfurter API.
- Integrated Real-Time Exchange Rate API to fetch and display currency conversion results, handling API errors gracefully for a seamless user interaction and usability.
- Implemented Dynamic UI Features, including real-time flag updates and dropdown population, enhancing user interaction and usability.
- Added Input Validation and Error Handling to ensure robust functionality and prevent application crashes.

Leadership Experience

Management Head, Coding and Development Club — January 2023 – June 2025

- Organized and management various technical and non-technical events in our college including Hackathons, Cultural Fests, Sports Fest.
- Lead a team of 15+ members, ensuring successful execution of multiple events with high participant engagement.
