Skills and Interests

Programming Languages	C, C++, Java, JavaScript, Python
Frontend Technologies	HTML5, CSS3, Bootstrap, React.js (With Redux), Node.js
Framework & Tools	.Net, Machine Learning, Power BI, Jupyter Notebook
Database	SQL, MySQL
SDLC & Methodologies	Agile, waterfall, DevOps, Debugging
Version Control System	Git, GitHub
Soft Skills	Critical thinking, Data-driven decision making, Excellent communication

Education

Graphic Era Hill University — Uttarakhand, India
Bachelors of Technology in Computer Science Engineering — 2021 - 2025

Nancy International School — Uttarakhand, India
Senior and Secondary Education — 2020 - 2021

Experience

Salesforce Developer | CERTIFICATE — Jul 2024 - Aug 2024

- Completed Salesforce Trailhead modules covering key areas: Salesforce Fundamentals, Organizational Setup, Relationship & Process Automation, Types of Flows & Security, Apex Development, Testing & Debugging, VS Code Setup, CLI Setup, Lightning Web Components (LWC), and API integration.
- Designed and executed automated workflows leveraging LWC and Apex, now adopted by 15+ teams, allowing for real time data updates and reducing error rates in reporting by 20%.
- Applied Lightning Web Components (LWC) for building modern, reusable UI components. Worked on API integration tasks to enhance Salesforce platform functionality and connectivity.

Accenture UK Developer and Technology Virtual Experience Programmer on Forage | CERTIFICATE — Dec 2024 - Jan 2025

- Completed the Developer and Technology Job Simulation where I developed an end-to-end understanding of the Software Development Lifecycle.
- Conducted in depth research into emerging technology trends particularly in the field of DevOps, demonstrating a proactive approach to staying informed about the rapidly evolving tech landscape.
- Created and delivered a compelling PowerPoint presentation analyzing and comparing Waterfall and Agile methodologies.
- Designed a custom algorithm using pseudocode and effectively communicated its logic by creating a detailed flow diagram.
- Debugged a program written in Python by fixing syntax and logic error in the code.

Certification

- Machine Learning A-Z: AI, Python & R (Udemy) | **CERTIFICATE**
- HTML, CSS, and JavaScript for Web Developers (Coursera) | **CERTIFICATE**
- Google Cloud Generative AI (SmartInternz) | **CERTIFICATE**

Projects

News Aggregator Web Application | LINK

- Designed a **modern and responsive UI** using **HTML, CSS, and JavaScript** with smooth user interactions.
- Integrated **GNews API** to fetch live news articles across different categories like **Sports, Finance, and Politics**.
- Implemented **search functionality** that allows users to find news articles based on custom queries
- Used **JavaScript fetch API with asynchronous handling** to load and display news efficiently.
- Added **loading spinners** to enhance user experience by showing real-time data fetching progress.

Portfolio Website | LINK

- Developed a fully responsive and interactive portfolio website to showcase skills, projects, and experiences.
- Implemented a clean and modern UI using **HTML, CSS, and JavaScript** with a focus on usability and aesthetics.
- Highlighted multiple projects, including **News Aggregator, Currency Converter, Tic-Tac-Toe, and Rock-Paper-Scissors Game.**
- Implemented a **contact form with Form spree integration** for seamless communication.
- Added **social media links (LinkedIn, GitHub, Email, Phone)** to enhance networking opportunities.

Leadership Experience

Management Head, Coding and Development Club — January 2023 – June 2025

- Organized and managed various technical and non-technical events in our college including Hackathons, Cultural Fests, Sports Fest.
- Lead a team of 15+ members, ensuring successful execution of multiple events with high participant engagement.
